

Embrey International School of Performing Arts

Health Care (School Policy)

■ Sudden illness or Accidental injury at School

When minor injuries or illness occur, we will treat them and the student will continue their lessons and parents will be informed at the end of the day.

When something more than minor injuries occur, we will treat them and immediately contact the parents for pick up and/or call for an ambulance or other appropriate measures. (If parents can not be contacted the next in line on the emergency list will be contacted.)

■ Illness and Communicable Disease

If your child has a fever, is feeling nauseous, vomiting, has a sore throat, etc., they must stay at home.

(If you suspect that your child has a fever, please take their temperature.)

If your child contracts a communicable disease, please notify the school immediately.

(Re-admission will require a written statement from a medical doctor.)

In an incident which a student with a communicable disease has come into contact with our student body, all families will be notified.

■ Medicine

No medicine brought from home will be administered by the school.

(Please have your child take a dosage before school and just after.)
